The sentinel network in the Slovak Republic is coordinated by Dr. Danica Stanekova, supported by C.A. PRIMA. The experience of Austrian and Slovak medical professionals gained during the previous cooperation project BORDERNET showed that such cross-border exchange has benefits for the HIV/STI practitioners in the two countries.

As you can see from the attached programme, this cross-border meeting with our Slovakian and Austrian partners will show you the first results of the project, HIV/Hepatitis B/ C - Coinfections and Gonococcal diagnostics. In two subsequent discussions we would like to hear your opinion on two healthcare-related topics and we will gladly accept your suggestions for improvement.
